NANCY SHARMA

SOFTWARE ENGINEER AND DATA ANALYST

☎ 8839671420 | Email | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning with hands-on experience across Python programming, machine learning, deep learning, data analysis, NLP, computer vision, and front-end development. Strong foundation in Data Structures & Algorithms using Java, DBMS, OOP, and Operating Systems, with practical experience applying data-processing and visualization libraries, developing ML workflows, and building responsive web interfaces.

TECHNICAL SKILLS

Programming: Python, Java, C, C++, R, JavaScript, HTML, CSS
Databases: MySQL, Oracle, SQLite, MongoDB
Python & Data: NumPy, Pandas, Matplotlib, Seaborn, SciPy, NLTK, Transformers
Machine Learning: Scikit-learn, PyTorch, Torchvision, CNN, Deep Learning, NLP, Transfer Learning
Data Visualization: Power BI, Tableau, Exploratory Data Analysis
Core CS: Data Structures & Algorithms, DBMS/SQL, OOP, Operating Systems
Tools: Git, GitHub, VS Code, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

5 Months (April - August 2026)

Python Developer Intern | SBN Research and consultancy | Bhopal, Madhya Pradesh

- Developed Python-based applications and machine-learning solutions for predictive analytics, including data cleaning, preprocessing, feature engineering, and EDA.
- Conducted research and developed AI/ML solutions across healthcare and biomedical applications, focusing on medical imaging, disease detection, drug-response prediction, and intelligent healthcare systems.
- Designed, trained, and optimized ML models using Scikit-learn, TensorFlow, and PyTorch for regression, classification, and forecasting tasks.
- Created interactive dashboards using Power BI, Tableau, and Python, while collaborating with mentors to analyze results, improve workflows, and deliver AI-driven solutions.

ACADEMIC AND INTERNSHIP PROJECTS

Development Projects

Netflix Clone User Interface: *Aim:* Recreate a streaming-platform interface as a front-end development project.

Approach: Built the interface using HTML and CSS, with JavaScript for interactive and dynamic UI elements. Applied responsive design principles for a user-friendly experience. *Tools: HTML, CSS, JavaScript*

QR-Based Restaurant Menu & Ordering System: *Aim:* Developed a QR-based digital restaurant menu that allows customers to scan a QR code to instantly access the menu, select items, place orders, and generate the final bill.

Approach: Built an interactive ordering workflow with menu browsing, item selection, order management, and automatic bill preparation, reducing the need for manual order taking. *Tools:* HTML, CSS, JavaScript, QR Code Integration, JavaScript-based Billing/Order Management

Data Analytics & AI Projects

Exploratory Data Analysis on Sales Data: Analyzed sales data using Python to identify patterns, trends, and relationships through data cleaning, statistical analysis, and visualization. *Tools: Python, Pandas, NumPy, Matplotlib, Seaborn*

Sentiment Analysis using Python: Analyzed Amazon product reviews using VADER and RoBERTa to classify positive, neutral, and negative sentiments. *Tools: Python, Pandas, NLTK, Transformers, VADER, RoBERTa*

AI-Assisted Pneumonia Detection from Chest X-rays: Developed CNN and ResNet50-based models for automated pneumonia classification from chest X-rays. The CNN achieved 88.78% test accuracy, with *95.90%* pneumonia recall, 0.9609 ROC-AUC, and 0.9757 average precision, outperforming ResNet50 on the evaluated metrics. *Tools: Python, PyTorch, CNN, ResNet50, Deep Learning, Image Processing*

AI-Assisted Organ-on-a-Chip Drug Response Prediction: Developed an AI-assisted drug response prediction framework using the GDSC dataset, evaluating Random Forest, SVM, ANN, and XGBoost models. XGBoost achieved 85.34% accuracy, 85.38% F1-score, and 93.68% ROC-AUC, while the XGBoost regressor achieved an R^2 of 0.8465 for LN_IC50 prediction. *Tools:* Python, Scikit-learn, XGBoost, Random Forest, SVM, ANN, GDSC Dataset

EDUCATION

B.Tech. — Computer Science & Engineering (AI & ML)	*LNCT University, Bhopal*	2023–2027 | *CGPA: 8.0*
12th Standard	*Government Excellence School, Shivpuri | MP Board*	2021-2022 | *87%*
10th Standard	*Kids Garden School, Shivpuri, MP | CBSE*	2019-2020 | *71%*
